Data & Business Analyst | Data Integrity & Governance | SQL | BI Dashboards (Power BI, Tableau) | Project Delivery

PROFILE

- Analytics-focused business analyst pairing an MBA in Business Analytics & Finance with a PRINCE2 delivery background; turns fragmented operational, financial, and property data into governed, decision-ready reporting.
- Build SQL/MySQL and Excel/VBA data pipelines and quality controls, and ships Power BI and Tableau dashboards leadership uses to track KPIs and drive decisions.
- 10+ years across operations and the built environment, now paired with graduate-level data science in Python and R, combining business context with hands-on analytical depth.

CORE COMPETENCIES

Data Integrity & QA | Data Cleansing & Integration | SQL (MySQL) | Advanced Excel (VBA, Pivot Tables) | Power BI & Tableau | Requirements & Scope | KPI Reporting | Stakeholder Management | Project Delivery (PRINCE2) | Commercial Real Estate

PROFESSIONAL EXPERIENCE

KDAP Global Realty LLC, Bronx, NY

Feb 2025 – Present

Business & Operations Analyst

- Own end-to-end data integrity across property, financial, and operational records, running scheduled audits, cleansing, and validation that cut recurring reporting errors.
- Automated underwriting and reporting workflows in Excel/VBA over SQL/MySQL pipelines, cutting manual processing time on core reports by roughly 50%.
- Designed Power BI and Tableau dashboards tracking occupancy, rent collection, and maintenance/capex across a multi-jurisdiction portfolio of 5 multifamily buildings plus units in Tampa (FL) and Ghana, spanning three markets across two countries.
- Underwrote, modeled, and closed 100 multi-family transactions, owning deals end-to-end from pro forma to execution and standardizing the underwriting template.

Tata Consultancy Services (MBA Campus Engagement), Edison, NJ

Jul – Aug 2025

Finance Analyst (8-week project engagement)

- Built ROI models, risk assessments, and executive KPI/KRI dashboards for capital-investment decisions, improving cost-forecasting accuracy on the test case by roughly 20%.

Ghana Armed Forces (Ministry of Defence), Accra, Ghana

Jul 2016 – Aug 2024

Senior Architect & Facilities Manager

- Planned and coordinated cross-functional capital programs totaling \$150M (\$100M residential, \$50M infrastructure), owning scope, schedule, and budget across multi-disciplinary teams.
- Produced project documentation and process maps; managed vendors, procurement, and handover for external clients including telecom operator MTN.

ANALYTICS & DATA PROJECTS

- Property Management Database System (MySQL), Pace University 2026: Designed** and normalized an 8-entity 3NF schema (90+ records) and wrote multi-table analytical SQL, including a rent-to-income risk classifier and a revenue-vs-maintenance view.
- Market Intelligence Visual Analytics (Best Research Project Award), Pace University 2026:** Engineered a 2,908-record, 47-variable dataset across 25 U.S. metros; applied K-means clustering, regression, and choropleth mapping (R, Tableau) to rank risk-return markets.
- Predictive Demand Forecasting, Pace University 2026: Built** a multi-model ensemble (XGBoost, LightGBM, Random Forest) in R with PCA and k-fold cross-validation, delivering strong validated out-of-sample accuracy.
- Modernizing Finance Hackathon (Wells Fargo, PwC & fintech startup), Pace University 2025: Designed** an RTP-compliant migration strategy and presented a financial model with budget projections and timeline to judges from PwC and Wells Fargo.

LEADERSHIP & AFFILIATIONS

- Project Destined, Real Estate Private Equity Virtual Internship (2026): underwrote three multi-family deals individually and in teams; completed BGO “AI in Commercial Real Estate” program.
- Beta Gamma Sigma (business honor society) | Beta Alpha Psi | NABA | Ascend

EDUCATION

MBA, Business Analytics & Finance (Real Estate Finance concentration), Pace University, Lubin School of Business, NY

May 2026, GPA 3.95

MSc, Facilities Management (Sustainability), Distinction, University of Greenwich, London, UK

BSc (Hons) & Postgraduate Diploma, Architecture, KNUST, Ghana

TECHNICAL SKILLS & CREDENTIALS

Data & Query: SQL (MySQL), Python (pandas, NumPy, scikit-learn), R

BI & Reporting: Power BI, Tableau, Plotly, Advanced Excel (VLOOKUP, pivot tables, VBA), Bloomberg Terminal

Real Estate Platforms: Argus, CoStar, RealPage, MSCI, Moody's/REIS, Green Street

Certifications: PRINCE2 Foundation | Bloomberg Market Concepts & Terminal | Chartered Architect (Ghana)
